Description

Magnificent pair of Louis XIV candlesticks, certainly made in the 19th century, in the best Parisian workshops, having been coated with dazzling gilding in perfect condition. These are models with foliage and foliage decorations. They were designed to be mounted electrically, because at the end of the 19th century, they were fitted with an ivory washer to avoid wear on the weaving of the wire, which is consistent with the quality of the manufacturing . They are marked below the inventory numbers. As time passes, and it is necessary to nitpick, tiny oxidations guarantee the age of the sparkling gilding.
