Width : 25

Height : 14

Depth : 25

Description

Pair of table lamps designed by Guy Bertrand in the late 1960s. Cubic in shape, each lamp is composed of a folded aluminum sheet forming a graphic and rigorous volume, housing a plexiglass reflector diffusing a soft and even light. The whole plays on the contrast between the metallic coldness and the translucency of the plastic, typical of French design of the period. Manufacturer: Disderot, circa 1969.
