Description

Jonathan AusseresseSmall colored glass sculpture in shades ranging from orange to yellow.The smooth, glossy, and colorful surface of the glass contrasts with the matte, rough volcanic rock base.In this series, which he has titled "Fluence," the artist developed a unique process to express the movements of molten glass : "Thus, the glass retains the imprint and trajectory of its transformation at high temperatures.The glass solidifies, capturing a slow movement, a wave, a flow for eternity."Signed and numbered on the glass.Work by a contemporary French artist.H 33 x W 22 x D 10 cmReference: LS6919675A larger sculpture (58 cm high) is also available in the same tones.
