Description

Here is a decorative piece in its own right, as much as an elegant guard for the hearth. Three-panel brass fire screen, the upper part crowned with a Louis XV style rocaille shell crest, enclosing a mesh panel. The central shell adds a refined decorative touch. French work of the 1950s in the 18th-century taste. Before a hearth, firelight brings it to life and reveals its full design: a piece both protective and resolutely decorative.
