

Sculpture Baroque XVIIIth Century, Saint James The Greater

Price : 2850 €

Period : 18th century

Condition : Parfait état

Material : Bois de tilleul

Height : 95

<https://www.proantic.comdisplay.php?id=253958>

Description

Height: 95 cm Executed at the beginning of the XVIIIth century, around 1700, this sculpture in linden wood represents the apostle Saint James the Greater. By its characteristic style and in particular the ample movement of the folds of the character's clothing, we can situate this work in full Baroque in Bohemia, perhaps Prague. Except a few small fingerprints, very good state of conservation Sold with a descriptive invoice & certificate.
