### Description

Three for the price of one!

Even if I betray a little the intentions of the Artist by privileging the side "Ã,non" (perhaps by fraternal affinity!), Since the most successful is of course the portrait, the current taste for more spontaneous works in excuse ...

The donkey is itself painted, I will have to say "brushed" vigorously on another painting which still distinguishes a young woman holding out of reach of a small child an apple or a ball. If our young equine with long ears made me think of Giuseppe Palizzi who, during his stay in France, has also passed through the Pyrenees where I found several paintings of him, the reverse is reminiscent of the key some of Thomas Couture's paintings with Italian themes ...

This is an oil on cardboard about 38 X46 cm,
