### Description

Very fine carving work in low relief for this case containing a mirror. The panel in front slides to reveal a mirror (glued), it is carved a character (presumably a woman) holding a carafe in one hand, a cup in the other standing in front of arcades of oriental architecture. The tour is also decorated with a very pretty frieze of flowers. The back is equally beautifully carved in bas relief of a flowering plant in the center, also surrounded by a frieze of flowers and foliage. Note: the work of great finesse done in an exotic wood, certainly cedar wood has a beautiful patina all in a very good original condition. Slight offset at the corners of the frame but negligible.

Dimensions of the mirror: 9.5 cm X 18.5 cm
