This cage is painted brass repoussé, decorated with interlacing and garlands of flowers. The birds are covered with real feathers, very realistic! This cage has undergone a complete overhaul, mechanism, sealing, various adjustment. It works perfectly, a continuous song and a discontinuous song, two listening positions. The time delay is very good because of the tightness of the bellows. The birds singing is excellent ... The height of the cage is about 52 cm. The diameter is 28 cm.
