### Description

Painter of Port Vendres and Catalonia, Poncelet in a colorful and falsely naive style was exhibited in the best Parisian galleries in the inter-war period. Present at the Pompidou Center, swimming pool museum in Roubaix, the Augustinians in Toulouse, ... .. Of an extraordinary emotion, tired, makeup falling, the rider poses for us after his circus number, arms raised, legs crossed, French flags in the distance ..... recalling that we are in 1941 date of execution of the painting. Worth a master painting. Certainly one of the most expressive works of the painter.
