Description

Table at support height with armillary sphere base. The latter is articulated on all its rings. The base is in the form of a circular base on which 3 feet go. On the bottom as on the top, the ends of the feet end with brass balls. The top is a glass top. We find in this very original table the lines of Art Deco. Work from the 1940s / 1950s. The metal has been covered with a layer of stuck on which the golden metal paint is placed. This table is in very good condition, note small chips on the base (see photo). Dimensions: 102cm high, 92cm in diameter
