### Description

Large French amputation saw in forged steel and octagonal ebony handle bearing the mark "A crowned" ie the mark of the cutlery family Lesueur. This is a work by Lesueur father active in Paris, rue des Cannelles from the mid-1760s. We can date the saw from the years 1770-1780. It measures 49 cm in length. Except for a small crack at the base of the ebony handle, very good original condition. The blade is vintage. Very good copy, signed.
