The inner edge of the mirror frame is inlaid with two blackened wood fillets and two light wood fillets alternately. It has a double possibility of installation: on its foot or on the wall thanks to its hanging ring. Its foot pivots to, in a way, close and allow hanging on the wall. Period 1st quarter of the 19th century, mercury mirrors having disappeared around 1830 due to the invention of a new non-toxic manufacturing process. Dimensions: Total height: 26 cm Width: 13.4 cm Very good condition. Beautiful patina of time. The mirror is entirely original, never touched or modified, such as the hanging system or the round-head screws that hold the elements.
