### Description

Very beautiful jewelry box in mother-of-pearl marquetry. Precious wood and ivory and bone. Of Syrian origin from the beginning of the 19th century. Very good quality of marquetry and assembly! In very good shape ! Hinges and lock also in good condition, quite functional by its depth and above all a marvel! To watch ! Very decorative! With a sumptuous effect in the light which allows all the reflections of the mother-of-pearl to be released. Fairly geometric decor. Dimensions of 27 cm long by 24 cm wide and 14 cm deep. Do not miss ! Superb antique!
