Description

In this sale a wonderful antique Empire French chandelier with 6 birds carrying the candle lights and an angel on the center.

Two colors of bronze, very nicely carved, dark bronze for the birds and gilded bronze for the other parts.

Datation 19th century

Size of the chandelier 24"3/4 (63cm) diameter and 35"1/2 (90cm) tall

You can hang the chandelier as it is on the photos or you can add a chain for higher ceiling. We can do this.

We can also reduce the actual size to adapt if

needed.

Condition:

Perfect working condition

No part missing.

Gilded and dark green bronze parts are in very nice condition.

Some very light use on tole parts in the center of the chandelier, but gives fantastic patina in my opinion, please look at the photos to have more than a description.

The original candles are made of wood, some use on the surface and a little ding on one that you can't see when the chandelier is on the ceiling.

The sockets are made of wood and brass and are in very good condition.

Please note that the wiring is ready to be used in USA, nothing to do, for other countries please ask before bidding.

This is a high quality handcrafted antique chandelier, nicely carved bronze and heavy, not a poor late product.

This is not a copy or reproduction or modified but an original antique.

This item comes from our région where we live called vallée de la Loire, a place where you find hundreds historic castels (Les Châteaux de la Vallé de la Loire) from 12th to 19th century and many old manors. The chandelier comes from a 19th century manor in the countryside close to the city of Angers, 50km from here. I travel on the road to find for you the most lovely antiques you would like to have in your home.

Please note that the chandelier comes without bulbs. The 6 flame bulbs needed are E14, easy to find 110V to 220/240V E14 bulbs on internet or in your local electricity shop.
