Saintonge. Finial To The Bird. Glazed Earth. First Half XIX° Century. H 63 Cm

680 EUR

Period : 19th century

Condition : Etat moyen

Diameter : 36 cm

Height : 63 cm

Description

Folk art.

Saintonge. Bird ridge finial in glazed earthenware covered with a lead glaze colored with an olive green gradation. Composed of two sealed parts. A bird surmounts a globular part above a flared column at its base. The latter is divided into four vertical lines composed of three superimposed rings.

Dimensions: Height 63 cm Diameter 36 cm

Period: First half of the 19th century.

Condition: Average condition. One of the sides of the bird suffered a shock revealing seeds inside, on the same trajectory the tail of the bird is damaged.

- Related work: Two similar finials are present in the collections of the Musée d'Orbigny in La Rochelle and the Musée des Arts et Traditions
