Description

For pierced ears. Long ear pendant, each adorned in a closed setting with a hexagonal amethyst which supports a drop of faceted turquoise as a tassel. The attachment system is a gooseneck with safety hook.

Main material: yellow gold, 750 thousandths, 18 carats.

Total weight of the amethysts: approximately 1.60 carats.

Total weight of the turquoises: 44.70 carats.

Proportions: Height: 6 cm, width: approximately 10.1 mm.

Net weight: 10.8g approx.

Our opinion: The bright shades of amethysts and turquoises go perfectly with these original dangling earrings.
