Relatively rare, we find few on the market that have reached us in such good condition. We know of a similar lot from a past sale at Sotheby's entitled "European Ceramics, Dutch Delftware and Glass" (lot 261). Liège is a coal-mining region, therefore conducive to the glass industry, which essentially depends on access to fuels. The Liège work is inspired first and foremost by Venetian work, work with pliers on blown and spun glass, a technique used in the case of our three baskets. The use of glass for
