

Peasant On Horseback

2 000 EUR

Period : 20th century

Condition : Très bon état

Material : Terracotta

Width : 40

Height : 55

Depth : 18

Description

Superb terracotta group representing a peasant riding bareback on a draft horse, his hand in visor to scan the horizon. The subject is very expressive and has beautiful sculptural qualities in its ability to catch the light. It has a brown patina on a rocky terrace with a lighter and more nuanced patina. No splits or bumps. Without signature.
