Description

Very beautiful tripod coffee maker from the Louis XVI period dated 1787 with the hallmarks of the city of Paris.Beautifully proportioned, this coffee pot with an elongated body and a neck molded with fillets. It rests on three skate feet with net and staple. The beak is covered with a very beautiful groove running along the body ending in a ball. The lid is characterized by an almost vertical bulge, surmounted by a spinning top, the rolling thumb rest. The handle is made of turned ebony, screwed into a baluster sleeve connected to the body by a molded piece.Manufactured by Alexandre De Roussy, received on September 13, 1758 as master goldsmith in Paris, this manufacturer disappeared in 1791.
