### Description

This animal bronze, with green patina, represents a Chinese-inspired horse from the Wei Dynasty. In its fine pageantry, the stationary horse bows its head as if making a bow. The quality of its ornamental harness, the richness of its removable saddle, the bells and the plume at the level of the hindquarters, are signs of its refinement and its distinction. A beautiful object reminiscent of the creations of this ancient royalty, whose Art has known how to cross the ages.
