Description

Authentic regional harness in solid chestnut with a column sculpted in the shape of a peasant woman. This property is topped with a square top, scalloped around its edge and embellished with tassels. The barrel is meticulously crafted and represents a smiling Vendée woman with a haughty bearing, dressed in a rustic dress and wearing clogs. She holds a sickle in her hands. The young woman carries the harness on her head, her hair held back by a traditional headdress. The whole rests on a cylindrical part followed by a square base, molded and scalloped, supported by four small "pancake" feet. This charming harness will delight you with its sculptures, its deep color and its bucolic charm. ******** Period: 1920 Excellent condition. Delivery possible, in France and in Europe, by
