Description

Old brooch in the shape of an openwork dome, chiselled with delicacy and decorated with 7 round garnets. The frame is edged with an openwork gold drape. The attachment system is a pin with safety hook.

Period: 20th century

Main material: yellow gold, 750 thousandths, 18 carats, eagle's head hallmark.

Total weight of garnets: approximately 4 carats.

Proportions: Diameter: 3.5 cm, thickness: 14.2 mm.

Net weight: about 6.5g.

Authentic old jewel - French work from the beginning of the 20th century. Small trace of restoration not very visible.

Our opinion: feminine, this antique gold brooch
