Description

This miniature is from the early 20th century, it represents a port scene. It does not bear a signature but it is finely executed, beautifully crafted. The frame is made of natural wood. For the state, we point out that the paper is warped with jumps of paint along the fold, in particular at the top of the masts and above the tower, all of which is visible in the photos. Note patina wear on the frames. The photos are an integral part of the description. Dimensions: Frame Height: 14 cm Width: 14 cm View Diameter: 7.9 cm A4578
