950 EUR

Period : 20th century

Condition : Parfait état

Material : Glass paste

Diameter : 14 et 12 cm

Height : 26 cm la grande et 22 cm la plus petite

Description

Large pair of decorative balls in the shape of a Pine Cone In Glass Paste, Murano workshops Around 1970-1980.

A pair of Large double-layered glass paste pine cones, probably Venice, Murano circa 1970-1980.

a rather unexpected object and of very good manufacturing quality with a double layer: the interior in amber glass in the style of aventurine and covered with a thick layer of slightly bubbled white glass.

a beautiful unusual object between the paperweight and the stair ball, or quite simply a nicely stylized pinecone.

a superb decor thanks to the adventurous effect.
a great decor for parties or just a nice Christmas gift. in a perfect state.
