Description

Small Sideboard at Support Height in solid Walnut opening with 4 doors, each decorated with projecting moldings forming a frame on panels with flat strips. They are also decorated with plugs and brass keyholes, fictitious on the left doors and in working order on the right ones. The furniture is supplied with its 2 keys. Note the clever period top and bottom closing system fitted to the left-hand doors. The upper part offers a storage space of 42 cm in height. The lower one, larger, is compartmentalized by a 30 cm deep shelf. A discreet molding around the edge embellishes its top. We find on the sides of this piece of furniture moldings identical to those of the door fronts. It ends with a wide molding and the whole rests on 4 straight feet. Its back and its shelf are made of various solid woods. This piece
