

Big Clock / Desk Ball Watch

Description

Glass ball desk clock/clock. Large diameter, larger than usual sizes. As a result, the seconds dial at 6 o'clock is artificial. The size of the movement does not catch up with the very large diameter of the dial. Lever escapement regulator type mechanism. This is overhauled and keeps time. The two glass sides are free of cracks or chipping, only the metal case shows some wear.

550 EUR

Period : 20th century

Condition : Très bon état
