### Description

We present this pretty gilded bronze sculpture representing a rooster that I nicknamed "le Chanteclerc". This sculpture is by an artist by the name of Meyer, it is enhanced by a pretty terrace in very architectural cherry marble, it is in very good condition but we must point out a fracture in the left leg. Our sculpture dates from the beginning of the 19th or very beginning of the 20th century. It is guaranteed to be old and genuine. (E) Ref. .... P1186
