### Description

Clever modular Scandinavian table from the Swedish brand Tingströms, created by the famous designer Folke Ohlsson, known for his creations combining simplicity and elegance. Its rectangular top, curved at its ends, rises thanks to an ingenious system and allows you to gain height. Two rounded extensions of 30 cm can come to widen it, thus offering more space to receive. This double-function "raise and lower" table will adapt perfectly to various uses, while marking your interior decoration with the resolutely vintage charm of Nordic design.
