

Pair Of Metal Sculptures Depicting Mythological Birds, France Late 19th

400 EUR

Period : 19th century

Condition : Bon état

Material : Metal

Width : 44 cm

Height : 28.5 cm

Depth : 25 cm

Description

Pair of engraved metal sculptures depicting two mythological birds, traceable to the French sphere and datable to the late 19th and early 20th centuries. The two sculptures are almost identical, distinguished by minor differences, such as the position of the legs; the most striking feature, however, lies in the metal chrome plating in that one sculpture is of a silver color, while the other has a surface coloring closer to brass.
