## Description

Large painting from the early 19th century representing a romantic mountain landscape with its original gilded wooden frame. Very interesting table by its decorative side and its ideal size to decorate a panel above a chest of drawers or a console for example. Dimensions to the frame 107 by 89 cm. Note a signature, difficult to read, and a date 1823. In addition, this piece is entirely in its own juice and has never been restored, which is exceptional. Possibility of delivery in France and worldwide.
