## Description

I offer you this gleaming polychrome chest of drawers due to the Nivernais workshops. To report a manufacturing defect (defect of blue enamelling) on the left upright of the chest of drawers. as well as a hair between two holes in the top (see photos). Otherwise beautiful object from the 19th century which could be located before but I am not expert enough to affirm that, but full 19th century without concern. The condition is overall very good for a 150 year old shaped earthenware!
