The interiors are furnished with two times two shelves. With a respective depth of 27 and 34 cm, they are placed on racks and therefore adjustable as desired over total storage heights of 85 and 73 cm. and especially the base of this Deux Corps are overhangs with multiple moldings. The sides of this piece of furniture are designed with flat bands, the back is also in Walnut. The set rests on two Galettes feet at the front and two straight feet at the back. The two elements that make up this piece of furniture can easily be disassembled from each other by a simple system of return screws. We will appreciate the rational dimensions of this sideboard, which contrast with the image of heaviness often associated with the old Deux Corps. Its recessed upper part and its glass doors accentuate this impression of Lightness. In addition, we will appreciate the high Quality and the pretty color of its Wood, the first being in line with the new aspirations of consumers, the second with the Decorative trends of the moment. ***** Period: 1900 Perfect condition after restoration in our workshop.
