A charming oval porcelain plaque painted with
deers in a landscape, with a hovel in the
background.

It is inserted in a giltwood frame with palms.

Paris Porcelain :

Since the discovery of kaolin, needed material for
the making of porcelain, porcelain factories also
called porcelain manufactures are on the increase
in all France and naturally in Paris. Most of those

manufactures worked in the 18th century under the protection of a member of the Royal family, such the comte de Provence, future Louis XVIII, who protected the Clignancourt manufacture. But during and the 19th century, numerous pieces did bear no making mark. It was then almost impossible to attribute them to any particular Parisian factory, hence the expression "Paris porcelain" or "Vieux Paris" including all those various productions.
