### Description

Very large Louis XV flat desk in rosewood and violet wood marquetry with herringbone curling. A very rich ornamentation of gilded and chiseled bronzes on this desk as well as a tray ingot mold. Spandrels frame the mold. A Napoleon III period desk mounted on an oak frame in the pure tradition of Faubourg furniture at the end of the 19th century. We notice a particular care for the quality of the bronzes. A fairly rare desktop size in this quality. DIMENSIONS: 1.98MX 0.98M AND 0.79M HEIGHT DELIVERY ON ESTIMATE
