Description

Suite of four gondola chairs from the Empire period, a very beautiful model with "Jacob" front legs, in mahogany and mahogany veneer. Very interesting set, due to the particularly elegant shape of the chairs that make it up. The carpentry is in good general condition, solid, with a beautiful mahogany color, but a little refinishing on the top of the backrest of two of the chairs, and some lifting of the veneer. The trim also needs to be reviewed. Dimensions: 50 cm wide, 81 cm high, and 44 cm for the seat height.
