### Description

Exceptional large Charles X mirror 1824-1830  
Height 180cm x width 134 cm The spandrels are richly decorated with flowers. The frame is very imposing, width 20 Cm. It has a finely engraved floral decoration with alternating matte gold and shiny gold polished with an agate stone. The gilding is original, pretty patina, beautiful shine. I made a few small restorations, in the traditional way, tempera gilding. It remains minor, it is imperceptible. The glass, which is 6mm thick, is new, with no flaws on the side. Many photos to illustrate this beautiful antique. No restoration to be planned. ready to install Delivery possible throughout France Quote on request I will inform you at 0687403174
