Description

- Rigid cardboard folder containing the 48 large plates of interior decorators, preceded by 6 pages, including the introduction by Mr. Fressinet and the tables of the photographic plates - - Very good condition for the plates, a little less for the folder which bears traces of handling and a small stain on the top border - - The first photo is an assembly of the front cover and one of the plates - - All the plates have large margins, which we have sometimes reduced for the sole photographic interest - - The great names of designers and decorators of the 1950s are well presented - - This is number 8 of this collection, edited by Charles Moreau, Rue de Prague, Paris, number 14 can also be found on our site -
