Height : 39

Depth : 23

Description

Ceramic wall console by Thomas -Victor Sergent of the School of Paris. It brilliantly illustrates the school of Paris. Its modeling and enamels are remarkable. He has made a specialty of the reproduction of crustaceans. His colors sometimes diverge resolutely from those of nature and he is a master of stylization. He produced a large number of shaped pieces, tobacco jars, vases, basins, characters, etc... The console is signed twice
