### Description

Object of curiosity, this miniature piece of furniture represents the facade of a beautiful building, with cornice and architrave, in the center a door, surmounted by a transom with a diamond pattern and flanked by a column on either side. The shaft of the columns is cylindrical and topped with an Ionic capital. The body of the object is inlaid and covered with an elm burl veneer in light tones, the columns are in flamed maple simulating marble. the door has its original lock. The small character, earthenware from Niederwiler, is not included in the price and can be the subject of an individual offer.
