### Description

Surprising "knife", which I think, was an exhibition knife with the different blades that the Periquiot cutlery could present, which was a large cutlery store in Poitiers. This "knife" is made from deer antler. It has seven blades, a saw and an awl. Dating = early 20th century Length with all blades deployed = circa 1.10 m//Closed = circa 70cm// the large blade = circa 38cm// the blades are stamped Periquiot Poitiers. This knife was therefore, as I think, an unusual exhibition and exceptional knife offered for sale. Museum quality model. Good general condition, I point out a slight lack at the end of the deer antler, visible photo N ° 12.- We refuse sales by telephone, the sale will be made only by email or request via Proantic messaging.- We send our items carefully, with insurance and tracking.
