Holy woman wood statuette, 17th century

This statuette represents a holy woman wearing a long tunic and a coat rolled around the waist, with head covered by a veil. Left arm is missing and the way the wood is cut suggests there was another element. It's maybe Saint Barbara, who is often depicted with a tower by her side.

Good condition, sound wood, some little lacks of wood in addition to the missing left arm (see pictures)

Height: 24,3 cm
