Description

Very nice old candlestick, in bronze. It rests on a square base, thin with a light border. Made in two parts, joined by a manufactured screwing system. The barrel does not have an evacuation hole for the wax..
Good general condition, to note all the same, a tiny hole in the barrel, well indicated on my detailed photos.. Presented as I bought, wax rests and oxidation, need to be cleaned! European working, probably French, dating from the first part of the 18th century, Circa 1700.
Dimensions: Height 14cm, Base 13 cm side.
