Description

Very beautiful suspension from the Art-Deco period in molded and pressed glass, circa 1925.

* Signed Muller Frères Lunéville *

Beautiful model of circular basin in thick glass, its perimeter decorated with a large frieze with geometric motifs interspersed with vertical motifs in strong relief. The lower part forming a dome offers a starry sky decor where stars, planets and others are symbolized.

Very good condition of the object (just to report a small shock around the edge, a little visible from above and not visible in the suspended position; the suspension chains in embossed and nickel-plated brass (the nickel-plated treatment still in used condition), but this gives a patina to the object.

I specify that the electrification has been revised,
