Description

"Louis Majorelle Art Nouveau Console / Mirror" Art Nouveau console by Louis Majorelle (1859-1926). This console/mirror is in excellent condition, the solid mahogany used by Louis Majorelle is exceptional. A very close console is at the Villa Majorelle in Nancy, which is part of the original furniture of the Villa. There are also important similarities with in particular the piano "La Mort Du Cygne" where one can notice resemblances with the jambs and also with the decoration of the piano keyboard. Decor of pine cones typical of Majorelle's favorite decorative register. To make it perfect, this furniture lacks the marble and the mirror, which have unfortunately disappeared. However, if you wish and for this set to be perfect, we can have a restoration quote made.
