Description

Ring in 750/° yellow gold (18 KT, owl hallmark), designed as a you and me, mainly adorned with a large (12.7 mm) white South Sea cultured pearl. Endowed with a beautiful surface, this pearl is very shiny, and captures by mirror effect what surrounds it (therefore, on the photos, the different marks and shadows on the pearl are only reflections...). Slightly baroque in shape, it is reminiscent, as well as by its color and its beautiful orient, of fine pearls....this shape corresponds to the antique aesthetics of the ring, worked in the same way with an element in you and me granulated gold. A very fine, particularly well-made granulation runs through the body of the ring in a spiral, and whose polished grains contrast with the matt body....Extremely delicate work for the mounting of this particularly rare
