Description

This pill box is made of enamel (cold enameling). The technique is pretty, small applications, a scene painted as the main decor, a woman in period costume is reading, a bird next to her. Unfortunately, it is very damaged, with poor restoration (it has the merit of existing). Note rubbing and wear of decoration and gilding, micro-scratches from use, small deformations on the collar, bites, lacks on the decorations of the perimeter, however it remains in an acceptable state of preservation for the 'era. Our many photos allow you to appreciate the quality of the object. For the state thank you for detailing the photos. Feel free to zoom. The photos are an integral part of the description. Dimensions: Closed height: 2.7 cm Open height: 7 cm Diameter: 5.5 cm

Inside diameter: 4.3 cm E: M1096
