Description

Armchair designed in the Baumann style, in the 1950s / 1960s, with structure in Light Natural Beech. This seat is covered with a very pretty original artificial leather, Cherry red. The backrest and the seat are sober and subtly curved. The beech armrests have a nice pronounced curve. This armchair rests on four elegant compass feet. Note the relative rarity of the frame of this aerial armchair, made of Light Natural Beech. We will particularly appreciate its avant-garde and refined silhouette, as well as the colorful note that it will bring to an interior that will already be in the modernist or Scandinavian spirit. ******** Period: 1950s / 1960s. Excellent condition after restoration in our workshop. Finish only Varnish after Stripping. Additional photos available by clicking on the following
