approaches and unique solutions in restoration.

Carpet restoration is traditionally a utilitarian craft. SARDJE TAPIS, specialist in the repair of oriental rugs (Cleaning from EUR50 per M<sup>2</sup>) SARDJE Carpet, covers all forms of carpet repair and modification. Carpet Restoration & Repair Despite a considerable amount of damage is a difficult challenge, we can restore any rug to its former glory. Your entrusted carpets will benefit from the artistic skills and creativity of our repair expert. It is very important to match the colors to the type of wool used. Wherever possible, we will use wool salvaged from old rugs and Kilim to make repairs to old antique rugs. Special repair mat on all types of rugs, carpets, Kilim, Sumack with all types of materials such as wool, silk, merino wool, synthetics, etc.

SARDJE CARPET: Our restorations consist of repairing damage, holes, tears, fringes, edges in the best possible way, in the most faithful way possible to the original state. The repair of carpets, Kilims, etc. prevents problems from arising later. For each repair has different methods to deal with. It depends on the foundation materials, the construction of the weft, the warp, the thickness and the fineness of the carpet, etc. Any damaged spots should be repaired or at least eliminated for further expansion. Try not to ignore them, they will only get bigger. The weaving of holes is easier if the warp and weft of the carpet do not have to be replaced, in addition to filling and re-wooling. It is very important that the texture, finish and color of the yarn match the existing rug. For this reason, patchwork has limited, if any, value - especially on a good oriental rug. Weaving restoration and repair is strongly recommended. All carpets are washed, repaired and modified in our workshops. Home pick-up and delivery We collect and deliver your carpets throughout the Alpes-Maritimes and Monaco, directly to your door. Available Monday to Saturday.
