### Description

We present for sale this pretty 17th century Italian painting of origin representing a scene with four characters. As the main character a Madonna with her child Jesus, an old character on the left and a small cherub on his left, at the back right a window with a very Italianate landscape at the end. This table needed a complete flattening. The chassis was very damaged and broken, we made one in our workshop before a talented restorer took over all of this pretty painting of a fairly large size. (We acquired it without a frame). (E23) Ref. .... WB548
