

Pair Of Cabriolet Armchairs From The Louis XV Period

2 000 EUR

Period : 18th century

Condition : Etat d'usage

Material : Painted wood

Description

Pair of Cabriolet armchairs in beech wood finely molded and carved with foliage and flowers, they rest on four arched legs carved with flowers with whiplash armrests. Provençal work from the Louis XV period, excellent original condition. These two seats have an old upholstery covered with a tapestry in the petit point user. As they are, these two armchairs have a lot of charm and offer a perfectly stable seat since they are pegged. So you can sit there; only the cover is used. A note: for those who want to restore them, only the cover (fabric) is to be expected since the trim and the stability of the armchairs is in good condition. Ideal for a bedroom or on either side of a Louis XV console in a corridor.
